

CORPORATE OVERVIEW

Tierra Alta Production Systems Inc. is recognized for having some of the most well respected people in the industry and the tremendous expertise they offer customers is paramount.

With a unique approach to the global distribution of PC Pumping Systems, Tierra Alta Productions Systems Inc. is strategically situated in the competitive market place to truly provide the well operator with a solution. Tierra Alta Production Systems Inc. can effectively and efficiently artificially produce wells utilizing our developing line of world class products, superior applications expertise and localized customer service.

As the global petroleum demand continues to grow, there is increasing pressure on producers to pursue non-conventional opportunities such as heavy oil and Coal Bed Methane. Tierra Alta Production Systems Inc. employees have over 15 years of experience applying PC Pumping Systems into these demanding markets and they are ready to assist any producer looking for a low cost, high efficient solution for their wells.

Our customers expect uncompromising attention to safety, environmental preservation and promoting a healthy work atmosphere, three cornerstone Tierra Alta qualities which truly distinguish this PC pump provider and always will.

Innovating Solutions

- Providing Industry leading applications support with a global outlook
- Apply state of the art technology solutions to improve operational costs
- Unique manufacturing and delivery models to reduce supply chain costs

Mission Statement

To have Tierra Alta Production Systems Inc. easily identified globally as the company that provides a solution to production problems via application and technology expertise.

Products

Tierra Alta Production Systems Inc.'s focus is PC Pumping Systems, with the emphasis on Systems. Tierra Alta is developing into a World class manufacturer of PC Pumps, including rotors, stators and drive heads, but there are many more components that make up a system.

One of these major components is the drive string. Tierra Alta Production Systems Inc is proud to be associated with the world's fastest growing manufacturer of coiled rod, Prorod. This relationship is allowing Tierra Alta Productions Systems Inc. to cost effectively bring the tremendous advantages of coiled rod to the international market place.

- Pump Off Control
- Alternative Power Supply Systems
- Torque Anchors
- Drive string Shear couplings
- Tubing Drains
- Downhole Gauges
- Prime Movers
- Conventional Sucker Rod and Guides
- Hardened Tubing
- Composite Wellhead Pumping Tees
- Tubing Rotators
- Wellheads and Flow Equipment
- Variable Frequency Drives
